This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

PREFACE.

This volume containing only the Syriac text of Bar Ṣalibhi's treatise against the Jews, will soon be followed by another in which an English translation with full notes, indices etc. will be presented.

Dr. J. Rendel Harris will add to this an Introduction dealing mainly with the *Book of Testimonies* [1]). It is with a view to the study of this subject that this text has been thought worth publishing.

As a more formal and full preface will accompany the second volume I hope to acknowledge there the debt of gratitude I owe to those friends whose generous help and assistance made this first venture in Syriac possible for me.

Some technicalities, however, must be mentioned here.

I. Punctuation. Entire and faithful reproduction of the punctuation of the MS. was not advisable as it tended rather to obscure the sense by its desperate condition. The system adopted is this: (.) = (⁘), (,) = (.), (;) = (.̣), (:) = (·), (?) = (:), (!) = (⁝). The pronoun ܡܢ has been distinguished from the preposition by a point: ܡ̇ܢ = ܡܿܢ: *who.*

A similar high point has been used — except in very evident and frequent cases like ܐܡ̇ܪܝܢ — to distinguish the active Participle from the Perfect; ܚ̇ܙܐ stands for *seeing,* ܚܙ̣ܐ for *he saw.*

In cases of concord in number only one of both words

1) Cf. *Expositor* VI N°. LXIX (Sept. 1905) pp. 161—171.

has generally been provided with the *Sejāmē (Ribbûi)* points. Sometimes exegesis is implied in this way, my only defence being that such difficulties are unavoidable in editing a rather bad MS., especially when inspection of the MS. is not possible while passing the sheets through the press.

II. Corrections. Mainly to the same cause are due the following corrections:

II. § 1. and elsewhere; the headings of the chapters all in rubrics — also the final ܫܠܡ etc.

II. § 2. 1); the MS. reads ܐܪ̈ܕܒܒܬܐ for ܕܘܒܠܬܐ, and ܒܪ̈ܝܢܝܢ (?) for ܟ̇ܪ̈ܝܢ.

IV. § 6. 4); the MS. reads ܦܘ̈ܩܕܢܘܗܝ, ܐܝܬܘܗܝ, for ܦܬܓܡܘ̈ܗܝ, ܕܢܡܘܣܐ. The words between brackets have been misread.

IV. § 23. 1); Read ܥܠ ܬܠܬܐ ܡܘ̈ܩܕܐ.

III. Omissions. This category consists of a score of *marginal readings* or *capitulations*. As they have no claim to any superiority to the majority of those which have been inserted in the text for the sake of completeness only, it seemed best to print here the only one which may be of some interest: (*see:* Romans. 9 : 33) V. § 7. ܐܝܟܢܐ ܐܡܝܪ ܕܗܐ ܣܐܡ ܐܢܐ ܒܨܗܝܘܢ ܬܘܩܠܬܐ ܘܟܐܦܐ ܕܡܬܩܠܢܘܬܐ ܘܡܢ ܕܒܗ ܢܗܝܡܢ ܠܐ ܢܒܗܬ ܀

Leiden, April 1906.

J. DE ZWAAN.
